

A blend of Nitrogen and Potash sources with added Sulphur and Magnesium formulated for sandy soils, USGA Greens, etc.

Water rate: 1:12

Current turf management practice aims to balance Nitrogen and Potash, particularly on lighter and sandy soils. NK Special is the ideal product for these programmes. It is an ideal spring starter and mid-season booster, with 5% Sulphur and 2% Magnesium. NK Special's concentrated unique gel formulation is phosphate free for where no additional phosphates are required.

5% Sulphur + 2% Magnesium
