A concentrated gel formulation ideal for autumn application – it hardens turf and improves colour. It also improves germination when overseeding.

Potash Plus is primarily an autumn treatment, but can also be used at any time of the year when grass requires a boost of potash, iron and magnesium. Potash Plus also contains additional trace elements including boron, copper, zinc and molybdenum.

Water ratio 1:12

Directions for Use

- Half fill sprayer tank with water.
- Calculate the required amount in ratio to spray volume being used.
- Shake container thoroughly. Add the required amount through top filter of sprayer.
- Wash through filter with water. Add remainder of water required and agitate for 3 minutes.
- If applying through sprayer without agitation (e.g., F25 Sprayer), pre-dissolve the required ratio in a suitable container before adding to the sprayer.

Precautionary Statements

- Avoid breathing fumes/vapours/spray.
- Wash face, hands and any exposed skin thoroughly after handling.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
