

A blend of Nitrogen and Potash sources with added Sulphur and Magnesium in a concentrated unique gel formulation.

Water rate: 1:12

A traditional start to the season with added sulphur for repeated applications. Apply as soon as grass starts growing and soil temperatures have reached 5° C. Also useful as a mid-season booster.

Spring & Summer's concentrated unique gel formulation is a blend of Nitrogen and Potash sources with added Sulphur and Magnesium. It is ideal as a spring starter and mid-season nutrient booster.

2% Sulphur + 1% Magnesium

Benefits

- Spoon feed or use application guide to determine application rate
- Spray and play
- Easy accurate spray application
- Time saving
- 70 : 30 leaf uptake
- Easy storage and reduced packaging

Application Guide

	Litres per 500 m ²	1	5	10	15
per 500 m ²	Kgs per 500 m ² Nitrogen	0.01	0.09	0.18	0.27
	Kgs per 500 m ² Potash	0.006	0.03	0.06	0.09
per Hectare	Litres per Hectare	10	20	30	50
	Kgs per Hectare Nitrogen	3.60	7.20	10.80	18.00
	Kgs per Hectare Potash	1.2	2.4	3.6	6.0
